

O350 UIM International Race

Power Boat Holland and PowerSeal Cylinder Techniques will be organizing an O350 UIM International Race on 12-13 July 2008 in Tolkamer, Netherlands. The town is very close to Arnhem and offers a spectacular race venue with full camping facilities, to include a restaurant and bar!!! The lake is located next to the Rhine River on the border of Germany. We will be paying travel money to each O350 boat that starts the race under UIM regulations (all boats regardless of country origin). The travel money will be 200 Euro per driver/boat. This will be the first time a UIM "O" class race has been held in Holland in many years and we need maximum participation to assure another race next season. Thanks for your support!!!

Ps. The advanced regs will be posted on the UIM website soon.
